Psychology (B), Chemistry (C), Physics (D)

2007 – 2012 Ise Community College – GCSEs

8 GCSEs (A*-C) grades including Maths, English, Triple Science and Engineering.

Personal Projects

“Should I Watch?” - Developed with C#

- Desktop program developed to make movie recommendations to user based on critic and user ratings from review websites.
- Correlates information retrieved from external websites, implementing API's such as FluentMetacritic and IMDB Scraper.
- User input contains autocomplete textbox which utilises MySQL retrieving 1.5 million movie titles.
- Web Browser functionality that automatically searches for the requested movies trailer on YouTube and displays it on GUI.
- Collates movie details including user/critic ratings, genre, directors and film length time and applies a formula to recommend viewing.

Eman's Fitness App - Developed with Java/XML (Android)

- Personal fitness application which aids workout routines and exercise.
- Deep knowledge of fundamental Android development practises, from UI to memory management.
- Uses SQLite to add, retrieve and delete exercise statistics to table.
- Helpful tools implemented such as Timer, BMI calculator, Weight converters.
- Option to save specific notes about an exercise to an SD card which allows data transfer to other devices.

Grade Calculator – Developed with Java (Swing)

- Interactive aesthetic GUI that receives various marks with percentage weights from user and calculates aggregate mark.
- MySQL implementation that can save final mark to database and retrieve a past saved mark from database.
- My most popular project with multiple forks on GitHub and colleagues using it.

- Personal website which has links to GitHub, LinkedIn and supplies contact information.
- Developed with HTML5/CSS3/JavaScript(JQuery) with Bootstrap
- Purchased a .com domain name and with configuration changes I redirected the new domain to the existing GitHub pages domain.

Technical Skills

Programming Languages	Java, C#, C, JavaScript, JSP, SQL, Python
Databases/Tools	HTML5, XML, CSS3, JQuery, Bootstrap3, MySQL, SQLite, Git
Software	MySQL Workbench, Visual Studio, IntelliJ, Webstorm, Eclipse, GitHub, Windows, Linux, Sublime Text 3
Software Development	Agile, Waterfall, UML

Experience

2013 – 2014 Maplin Electronics - Sales Advisor

- Gained valuable written and verbal communication skills through effectively dealing with customers and management.
- Problem Solving skills were developed by dealing tactfully with customers concerns.
- Demonstrating good product knowledge to customers on key promotions and offers.
- Possess strong commitment to team environment dynamics with the ability to contribute expertise and follow leadership directives at appropriate times.

Interests

2013 – 2014 7 A side Football Team - Captain

- Was the captain for a small football team.
- Being a captain enhanced my management and leadership skills by organizing training sessions and meetings.
- Able to motivate and lead others in a team environment.
- With hard work and dedication our team placed 2nd overall.

Technology

I have an undeniable passion for Software Engineering. By joining The Institute of Engineering and Technology, I receive E&T magazines monthly to seek the latest innovations in the technology sector. I also have completed numerous courses on Codecademy such as Ruby, Ruby on Rails and PHP.

Profile

A creative self-starter individual that has an overwhelming passion for technology. This is shown through my numerous innovate personal projects I develop in my spare time. Capturing the experience and skills from working in a business environment, I can work in a team as well as independently and can always be trusted to do an excellent job. In addition to this, I am a very fast learner who always feels it is necessary to accomplish my goals.
